

Office of the Special Inspector General for Pandemic Recovery

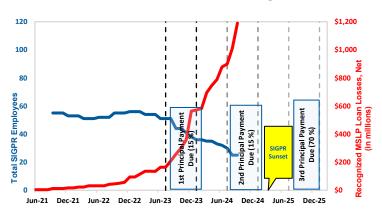

SIGPR continues to keep the Department of the Treasury, Congress, and other stakeholders aware of an impending crisis in the programs created in March 2020 via the Coronavirus Aid, Relief, and Economic Security (CARES) Act.

SIGPR notes an alarming rate of defaults by borrowers who are failing to pay even the interest payments on the loans for both the Main Street Lending Program (MSLP) and Treasury's Direct Loan Program. Now that initial MSLP principal payments have become due, loan losses have increased dramatically.

On October 10, 2024, the Federal Reserve reported MSLP loan losses of \$1.19 billion as of September 30, 2024. Loan losses have drastically increased by over \$1 billion in the past 15 months since the borrowers' initial MSLP principal payments became due starting in July 2023 through September 2024. This impending crisis of loan defaults comes as SIGPR prepares to sunset on March 28, 2025.
